

# T2 KEY TERMS

165 mph  
2 mph  
265 mph  
75 mph  
A-alpha  
A-beta  
A-delta  
aerobic  
Alzheimer's plaque  
Alzheimer's tangles  
amygdala  
anaerobic  
antagonistic muscles  
anterior cingulate cortex  
anterograde amnesia  
aqueous humor  
astigmatism  
asymmetrical division  
auditory cortex  
bad pain  
blood-brain barrier  
C-fibers  
chemical senses  
cones (S, M & L)  
cornea  
corpus callosum  
dorsal  
dorsolateral prefrontal cortex  
drusen  
dull pain  
endothelial cells  
Eustachian tube  
face-like  
faces  
founder cells  
frontal lobes  
fusiform gyrus  
genu  
glaucoma  
good pain  
gray matter  
hallucinations  
hippocampus  
homunculus  
hypothalamus  
Iowa Gambling Task  
iris

itch  
left hemisphere  
lens  
LGN  
M1  
macula  
mechanical senses  
Meissner's  
Merkel discs  
MGN  
mirror neurons  
muscles  
negative symptoms  
neural tube  
nystagmus  
occipital lobe  
optic chiasm  
orbitofrontal prefrontal cortex  
ossicular chain  
oval window  
Pacinian corpuscles  
pain  
pain from a romantic breakup  
paradoxical cold  
parietal lobes  
phantom pain  
photopic visual system  
physiological zero  
pinna  
positive symptoms  
posterior parietal lobed  
prefrontal cortex  
premotor cortex  
primary motor cortex  
primitive streak  
radial glial cells  
retrograde amnesia  
right hemisphere  
rods  
round window  
Ruffini corpuscle  
rules about rules  
schizophrenia  
scotopic visual system  
semicircular canal  
sharp pain  
skin  
splenium  
split brain  
strabismus  
substantia nigra  
superior olivary complex

superior temporal lobe  
supplemental motor cortex  
symmetrical division  
target detection  
target identification  
temperature  
temporal lobes  
thalamus  
tinnitus  
truncus  
upright faces  
ventromedial prefrontal cortex  
vertigo  
vestibular senses  
vitreous humor  
white matter
